Welcome to Proper Coffee

– Part of the Tamar Fresh family where every sip tells a story

Proper Coffee is the artisan coffee brand proudly rooted in the Tamar Fresh family, a trusted, family-run business based in Saltash, Cornwall. With over 30 years of experience supplying the South West with the finest fresh produce, Tamar Fresh has built a reputation for quality, reliability, and strong local relationships.

Carrying that legacy forward, Proper Coffee was born from the same values: quality, freshness, and a passion for honest, well-crafted products. We source premium, ethically-grown coffee beans from around the world and roast them in small batches to capture their unique flavor and character.

From smooth single-origins to rich, bold blends, Proper Coffee fuels cafés, restaurants, workplaces, and homes throughout the South West and beyond. Every cup reflects the care, craft, and community spirit that defines the Tamar Fresh family.

Freshly Roasted. Ethically Sourced. Boldly Brewed. Proudly from Saltash, Cornwall.

Proper Job.

PROPER
COFFEE

Proper Eco-Warriors!

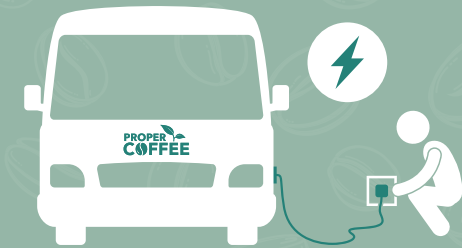

At Proper Coffee, we are dedicated to reducing our carbon footprint. In 2023, we took the decision to turn our workforce into Eco-Warriors by making sure we can reduce our energy usage where ever possible. From installing solar panels on our factories, all the way to purchasing all electric vehicles, we are doing our best to save the planet (while still making yummy food).

100Kw of Solar Panels installed

Generating 70% of electricity we use in the business able to run fridges, freezers, pump trucks, lighting, PC's, phone systems etc

Purchase of new All Electric E-Transit

Lighting in the business moved to LED

Lights on sensors as opposed to switch, designed to switch off when not in use

Coffee Blend:

#0 Decaffeinated Coffee

Our Decaf is crafted from 100% Arabica beans sourced from Central America. Naturally decaffeinated using the Mountain Water process, it delivers smooth tasting notes of dark chocolate, stone fruit, and red apple.

Gently roasted to a medium profile to preserve sweetness and balance, it's then packed in 1kg bags with coated foil and a freshness valve to lock in flavour and aroma. Enjoy a rich, creamy coffee experience — without the caffeine.

Coffee Blend:

#1 Blend Coffee

Our #1 Blend is crafted from a carefully balanced mix of high-quality Arabica and Robusta beans. With a smooth body and rich tasting notes of cocoa, liquorice, and spice, this blend is perfect enjoyed black or paired with milk.

Roasted to a dark profile for depth and character, it's then freshly packed in 1kg bags with coated foil and a freshness valve to lock in aroma and flavour — so every cup tastes just as good as the day it was roasted.

Coffee Blend:

#2 Blend Coffee

Our #2 Blend is made using speciality grade Arabica beans sourced from across the globe. This unique combination creates a crowd-pleasing coffee with delicious tasting notes of milk chocolate, apple, and a hint of lemon zest.

Roasted to a medium-dark profile for depth and balance, #2 Blend is freshly packed in 1kg bags with coated foil and a freshness valve to lock in aroma and flavour — ensuring every cup is full of character.

Coffee Blend:

#3 Blend Coffee

Our #3 Blend combines two carefully selected coffee origins to create smooth flavour notes of caramel and dark chocolate.

Made with 100% Arabica beans and Fairtrade certified, every purchase helps support communities at origin while delivering exceptional quality in every cup. Roasted to a medium-dark profile for balance and richness, #3 Blend is freshly packed in 1kg bags with coated foil and a freshness valve to lock in aroma and flavour.
